

Baumber Walled Garden & Louth – April 2025

We set off from Lincoln on our April trip to Baumber.

It was a very chilly start to the day with hopes of improvement as the day went on.

Distance wise it was obviously one of our shortest trips of the year.

As we arrived at the gardens, we got off the coach to be greeted by still very chilly weather.

The gardens comprise of different plantation areas that surround a small lake.

We started the day by going into the cafe to enjoy a drink and a toasted teacake.

Afterwards we all split up to wander around the gardens.

They have a collection of very small shops where you can buy gifts.

There are also some themed gardens to take in.

With hope that the weather might warm up, it didn't by the way, everyone did their own thing to take in what was on offer.

After the gardens we got back onto the coach to make our way to Louth. There we again split up into our own little groups to wander around Louth. Some no doubt found some shops to browse while our group found a lovely little pub, what else?, to enjoy a drink and a meal to finish the day. Thank you to Jane for organising the day.
